Agile, HTML, CSS, responsive design,
CSS frameworks Foundation/Bootstrap),
Adobe Creative Cloud, WordPress,
PHP/Object-Oriented PHP,
JavaScript, jQuery, and MySQL

PROFESSIONAL EXPERIENCE

Web Developer/Designer   Aug 2013–Current
Liturgical Publications   New Berlin, WI

Started as a web designer and transitioned into the web developer role in Fall of 2015. Collaborated on a team of 4 developers and 1-2 designers to develop and maintain a suite of web applications designed to assist churches and senior centers.

Key Accomplishments

- Redesigned the theme development process and file structure for WeConnect.com, effectively cutting the necessary development time by 2/3rds.

- Designed and developed several themes as well as other interfaces for WeConnect and ParishesOnline

ParishesOnline is an online directory for churches and small businesses that support those churches with ~600k unique views per month.
WeConnect is a content management system geared toward church and non-profit clients with ~500k unique views per month

---

Web Designer   Sept 2012–Aug 2013
PowerSport Network   Sussex, WI

Designed and maintained websites for dealerships across the United States that carry powersport, marine, and commercial vehicles and equipment.

Key Accomplishments

- Developed, executed changes for, and maintained over 80 dealership websites
- Integrated the latest HTML and CSS web standards into a legacy application
- Mentored 4 colleagues in the latest standards for HTML and CSS
